2. Applicant is given **one month**, or thirty (30) days, whichever is longer, from the mail date of this notice to supply the correction, if the non-compliant amendment is one of the following: a preliminary amendment, a non-final amendment (including a submission for a request for continued examination (RCE) under 37 CFR 1.114), a supplemental amendment filed within a suspension period under 37 CFR 1.103(a) or (c), and an amendment filed in response to a *Quayle* action. Continuation of 4(e) Other: The amendment filed with the RCE did not provide mark-up notations relative to the after-final amendment that was submitted on July 9, 2007. In response to the Notice of Non-compliance mailed 12/13/2007, applicant argued the amendment was compliant because the advisory action of August 14, 2007 indicated that the after-final amendment was not entered. As such, applicant asserted that the amendment filed with the RCE should not have been marked-up relative to the after-final amendment because that amendment was not entered. However, upon the filing of an RCE, all amendments are entered in the order in which they were received. The following is an OCR excerpt from the Request for Continued Examination (RCE) form filed by applicant on October 3, 2007.

This is a Request for Continued Examination (RCE) under 37 CFR 1.114 of the above-identified application. Request for Continued Examination (RCE) practice under 37 CFR 1.114 does not apply to any utility or plant application filed prior to June 8, 1995, or to any design application. See Instruction Sheet for RCEs (not to be submitted to the USPTO) on page 2.

1. [ Submission required under 37 C.F.R. 1.114 ] Note: If the RCE is proper, any previously filed unentered amendments and amendments enclosed with the RCE will be entered in the order in which they were filed unless applicant instructs otherwise. If applicant does not wish to have any previously filed unentered amendment(s) entered, applicant must request non-entry of such amendment(s).
